

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Tuesday - 21 April 1964

1. [redacted] Received a request from Jay Scurwine on behalf of one of his Senators for an English translation of the Per Lindgren article on spy schools operating in the Soviet Union, referenced in the WASHINGTON POST of 20 April at page A-12.
2. [redacted] Met with Representative Harry Sheppard and reviewed with him the matter requested by Chairman Cannon. (See Journal item of 17 April.) Mr. Sheppard appreciated our assistance and indicated that he would prefer not to keep a copy of the letter as long as the Chairman has one. He would appreciate it if one could be made available to him at the meeting.
3. [redacted] Met with Mr. Fred Meemer, Staff Director, Senate Immigration and Naturalization Subcommittee, concerning the legislation being introduced by the Committee at our request for exemption from the ten year residence requirement for citizenship with regard [redacted] Necessary biographic background for use in Committee report will be provided the Committee when the Immigration and Naturalization Service report on the bill is requested.
4. [redacted] John Anderson in the Intelligence Division of AEC called to say that "one of the Commissioners" had asked for CIA's annual Atomic Energy report. Mr. Anderson said he was not familiar with such a report and asked me if we could get any information on this point. I told him that we had no annual report as such. It then developed that the item in question was the Director's prepared statement for his annual presentation to the Atomic Energy Commission. Mr. Anderson said he thought the Commission had this and said not to pursue the matter further unless he called back. (I alerted [redacted] OSI, on this request and on the possibility of the Joint Committee's calling Mr. McCone again on the subject of the proposed cut back in the Atomic Energy Program.
